Student at Monash University with hands-on experience in Gen AI development, web development, database management, and automation testing. Actively seeking opportunities to collaborate and grow in the tech industry.

Education

Monash University, Clayton, VIC

Feb 2025 – Present

Masters in Information Technology

- GPA: 3.6/4.0 (WAM: 79.90)
- **Coursework:** Databases, Mobile App Development, Cloud Computing

Vellore Institute of Technology, TN, India

July 2019 – May 2023

Bachelor of Technology, Computer Science and Engineering

- GPA: 8.2/10
- **Coursework:** Software Engineering, AI and NLP, Web Programming, Python and Java, Data Structures

Experience

Data Engineer

Gurugram, HR, India

IBM

July 2023 – Jan 2025

- Worked to develop generative AI solutions to help automate the ECN processes for Maruti Suzuki. Worked in a team to identify the sub-processes that can be automated, building the project architecture, prompt engineering, developing the application.
- Lead the automation testing team in a project for Maruti Suzuki. Was responsible for guiding the team technically, writing and executing automation scripts, reporting and getting bugs fixed by collaborating with other teams.
- Helped design and optimize data tables and queries for a connected car services mobile application.

Research Intern

Burwood, VIC

Deakin University

Feb 2023 – July 2023

- Exploring the use of GPT models and prompt engineering in software engineering processes, with a particular emphasis on requirements gathering.

Web Developer Intern

Bengaluru, KA, India

Accord Software and Solutions

June 2022 – July 2022

- Developed a document manager web app using Flask and MySQL, enabling users to upload and organize documents by company projects for easy access.

Skills

Programming Languages: Python, Java, SQL, Kotlin

Technologies: MySQL, IBM Cloud, AWS, watsonX, Appium, Cucumber, IBM IQP, Perfecto, Flask, Git, Jira, Adobe Photoshop, Adobe Premiere Pro

Domains: Artificial Intelligence, Automation Testing, Web Development, Graphic Designing and Video Editing

Languages: English, Hindi

Personal Skills: Adaptability, Punctuality, Teamwork, Critical thinking, Problem-solving

Publications

LockNKey: Improvised Cloud Storage System using Threshold Cryptography Approach

October 2022

Aryan Vats, Praneel Jimmy, *Arohan Mishra*, Aju D

Projects

Spotilyser

[Github](#) 

- An analytical dashboard to visualise Spotify listening data of a user and also to predict their mood

LockNKey

[Github](#) 

- Improving cloud storage by using Shamir's Secret Sharing and Lagrange Interpolation Method

RunSafe

[Github](#) 

- A Data driven android mobile application to assist runners in their training to analyse injury risk and give mitigation strategy

Achievements

- Paper accepted in eSmarTA2022 conference in Yemen, published in IEEE
- Received an Achievers Award from VIT for qualifying for University Rover Challenge Finals - 2022
- Selected for Semester Abroad Program at Deakin University, Melbourne, Burwood
- Received a Commendation letter from Monash University for excellent academic performance
- Was selected as Chairperson for VIT Animation Club
- Ran a Marathon and Half Marathon in target times

Co-Curriculars and Interests

- Training for Iron Man triathlon and marathon races
- Volunteered at Make A Difference NGO as an Academic Support Volunteer
- Casual employee as a Team Member at Marrybrown Australia, Kitchenhand at Lucci Eatery, Ivanhoe
- Technical team member at VIT Animation Club
- Management team member at Team Vyadh, a martian rover team in SEDS-VIT student chapter
- Hobbies include listening to music, watching movies and astrophotography
